IX INTERNATIONAL PARROT CONVENTION

WE CARE
Parrots

The International Convention of Parrots is the most important event for parrot lovers. Since its founding in 1986, it has become a worldwide event that takes place every four years and brings together scientists, biologists and parrot lovers.

Our next convention will be celebrated, as usual, in the charming town of Puerto de la Cruz, in the island of Tenerife, from the 24th until the 27th of September.

As always it will be a friendly meeting among friends, experts and lovers of this fascinating species in order to share their common passion, exchange thoughts and experiences.

The convention will feature high level presentations by top keynote speakers. As always, we will guarantee a fantastic social programme of “wining&dining”, which will culminate in the elegant Gala Dinner held in the exotic gardens of the Hotel Botánico.

Responding to unprecedented demand, there will be in-depth workshops held on the three days after the Convention, with experts giving very practical advice on the care and breeding of parrots.

In addition to the convention, there is much for you to see in the beautiful island of Tenerife. It does not only boast the highest mountain of Spain, but also its surrounding landscape. We encourage you to discover the black sand beaches and to admire the breathtaking sunsets. September is one of the most spectacular months of the year. The long beautiful summer days will invite you to take a walk on the beach.

In addition, we would like you to get know one of the most top-notch aquariums of the world. It offers more than 12,500 square feet, 7,5 million liters of water, and 350 marine species from 35 different ecosystems. We propose you an amazing day trip by boat to the 28th of September 2018.

The conference attendees and accompanying persons will have unlimited access to Loro Parque during the Convention, and will be able to experience the new and enhanced attractions. These include the wonderful new habitat for Red Pandas and the new aviaries for communities of Amazon parrots and parakeets from South and Central America. They will also be able to see the Golden Lion Tamarins for the first time in Loro Parque, as well as the renovated habitat for the otters. A new spectacular exhibition of three African lions will also await you. The most adventurous should not miss to visit Siam Park, the best aquatic park in the world by TripAdvisor.

Don't miss this unforgettable event and ensure your place.
